

Editorial to the fourth issue of the International Journal of Geoscience, Engineering and Technology

With our cordial greetings, we present the fourth edition of the International Journal of Geosciences, Engineering and Technology. In this edition, we selected articles with multidisciplinary characteristics that contribute to the advancement of science, the environment and technology.

The International Journal of Geosciences, Engineering and Technology is an interdisciplinary journal of the of the postgraduate Program in Technology, Environment and Society of the Federal University of Vales do Jequitinhonha and Mucuri (PPGTAS/UFVJM).

Researches using Arduino technology and others focused on the Engineering and Technology fields stand out, such as surveys of geological and environmental risk areas.

Only with scientific research will societies achieve future development. Without proper research, there will be no innovation.
